COCHLEAR IMPLANT INTERNATIONAL COMMUNITY OF ACTION

AICE Federation is the Spanish national federation for people who use cochlear implants and their families. We bring together associations from different regions of Spain.

Our role is to give a voice to people with cochlear implants, defend their rights, and support them at every stage of their lives. We work in many different areas: information, support, accessibility, awareness, and policy advocacy. We also work with public bodies and other organizations.

Our main goal is to improve inclusion and quality of life, and to remove barriers to communication.

In a few words, we want people with cochlear implants to be full and active members of society.
